

Yung-Sian Fang

yfang097@ucr.edu | [linkedin.com/in/yung-sian-fang](https://www.linkedin.com/in/yung-sian-fang) | sammyfang.tw | Riverside, CA

MBA candidate in Operations and Supply Chain Management with 4+ years of technical experience and 1+ year of procurement and supply chain operations experience. Combines computer science, data analytics, process automation, and cross-functional execution to improve operational efficiency, support business decision-making, and build scalable workflows across technical and business environments.

EDUCATION

UNIVERSITY OF CALIFORNIA, RIVERSIDE - SCHOOL OF BUSINESS

M.B.A. with concentration in Product Management

Sep. 2025 - Jun. 2027

- Honors: AGSM Professional MBA Merit Scholarship; **1st Place**, USC AI Buildathon; **2nd Place**, Western County of Riverside Regional Fast Pitch; **1st Place Poster**, UCR Graduate Research Symposium

NATIONAL DONG HWA UNIVERSITY

M.S. Computer Science and Information Engineering

Sep. 2022 - Jun. 2024

- Honors: Academic Excellence Award; Graduate Student Scholarship.

NATIONAL DONG HWA UNIVERSITY

B.S. Computer Science and Information Engineering

Sep. 2018 - Jun. 2022

EXPERIENCE

Hewlett-Packard Enterprise (HPE)

Jul. 2023 - May 2025

Procurement Operations Analyst II

Jul. 2024 - May 2025

- Managed procurement operations across APAC markets, supporting supply continuity, cost control, and production readiness.
- Coordinated with suppliers, manufacturing partners, finance, and engineering teams to resolve operational issues and reduce supply risk.
- Used data analysis to support inventory planning, procurement tracking, pricing updates, and workflow improvement.

Software Engineer Intern

Jul. 2023 - Jul. 2024

- Built automation tools using Python, Shell, and Perl to reduce manual review time and improve QA workflow efficiency.
- Developed internal data pipelines and tracking tools to improve version control, data visibility, and recurring validation processes.
- Supported cross-functional coordination across engineering, QA, supply chain, and ODM/OEM teams.

Pojen General Hospital

Feb. 2023 - Jun. 2023

DevOps Engineer Intern

- Developed Python-SQL tools to support medical imaging workflows and operational data management.
- Assisted with network infrastructure, system maintenance, and cybersecurity monitoring using Nessus, OpenVAS, and Snort.

Provision Information Co., Ltd.

Jul. 2021 - Aug. 2022

Hardware Security Module R&D Engineer Intern

- Developed cryptographic tools using C, Java, and Python for hardware security module applications.
- Supported secure key management, technical documentation, and GUI-based encryption tool development.

INNOVATION & LEADERSHIP

- Google Developer Groups on Campus, UC Riverside - President & Founder: Built a 97+ member campus tech community focused on AI and software development.
- Supply Chain Society at UC Riverside - Internal Communications Lead: Supported board communications and Excel-based analytics workshops.
- NSF I-Corps Program, UCLA Regional - Project Lead: Conducted 50+ customer discovery interviews to assess user needs and product-market fit.
- School of Business, UC Riverside - Graduate Student Ambassador: Improved admissions communication workflows using AI-assisted process automation.

SKILLS

- Technical & Analytics: Python, SQL, Excel, Power BI, SAP, R, TypeScript, Shell Script
- Business & Operations: Supply Chain Operations, Procurement, Inventory Planning, Process Optimization, Workflow Automation
- Certifications & Languages: Google Project Management Certificate, IC3 Digital Literacy | English, Mandarin, Japanese
