

Yung-Sian Fang

MBA candidate | Supply Chain Analytics | AI-Assisted Decisions

yfang097@ucr.edu | LinkedIn | sammyfang.tw

Connects engineering and management research to improve operational decisions. Experience spans supply chain analytics, workflow automation, simulation, and product discovery.

EXPERIENCE

d-Matrix Supply Chain Analyst Intern	2026
Integrated SQL and carrier APIs for logistics monitoring, analyzed spending with Power BI, and piloted computer-vision serial capture for inventory counts.	
Hewlett Packard Enterprise Procurement Operations Analyst	2024-2025
Coordinated APAC suppliers and manufacturing partners, maintained SAP procurement data, and supported material flows for new-product introduction.	
Hewlett Packard Enterprise Software Engineer, Intern	2023-2024
Built Python version-tracking and Shell/Perl test-data tools to support cross-team engineering validation.	
INSPIRE Lab, UC Riverside Graduate Researcher	2025-present
Develop GPU-enabled simulation and optimization for inventory policies under volatile demand, uncertain lead times, and tail risk.	
Behavioral Economics & Decision-making Lab, UCR Research Assistant	2025-present
Research interests include AI-assisted managerial decisions and behavioral biases in operational settings.	
Human Resource & AI Application Lab, NTNU Research Assistant	2023-2024
Developed facial and vocal emotion-analysis models and supported statistical analysis and experiments.	
Pojen General Hospital DevOps Engineer	2023
Developed internal data tools and supported IT operations.	
Provision Information R&D Engineer (HSM)	2021-2022
Contributed to security research, tooling, and technical documentation.	

SELECTED PRODUCT AND COMMUNITY WORK

Amigo Friends Customer discovery	2026
Participating in NSF I-Corps Hub West ZAP to test needs and product positioning.	
DuckCard Product discovery	2025-2026
Led 50+ UCLA NSF I-Corps customer interviews to inform requirements and workflow design; continued through UCR INNOVAR in fall 2026.	
Google Developer Groups on Campus, UC Riverside Founder	2026
Built a 100+ member community and organized an AI kickoff with 50+ participants.	

EDUCATION

MBA University of California, Riverside	2025-2027
Dual concentrations: Operations and Supply Chain Management; Accounting.	
MS, Computer Science National Dong Hwa University	2022-2024
Applied research in security and intelligent systems.	

SKILLS

Supply chain analytics Procurement Product discovery Python SQL Power BI Applied AI
